### ● HONOURS AND AWARDS

---

30 JUN 2023 Cybersecurity National Lab - CINI

**Bronze medal at Cyberchallenge** The [CyberChallenge](#) is a team CTF (Capture The Flag): a cybersecurity competition where teams of six people represent their university, the [University of Pisa](#) in my case.

My team ranked third nationwide in the finals.

8 OCT 2021 Olimpiadi della Cultura e del Talento

**Silver medal at Italian Culture and Talent Olympiads** The [Culture and talent olympiads](#) are an Italian team competition for high school students. My team ranked second in the finals held in Tolfa (RM) after the pandemic.

27 NOV 2020 INFN - Istituto Nazionale di Fisica Nucleare

**Honorable mention at competition "Il cielo visto da me" - Dario Fabiani award** I was awarded a mention of honor for my project: an HTML site to simulate how the planets of the Solar System appear when with the Sun behind them.

### ● VOLUNTEERING

---

29 SEP 2024 - 18 SEP 2025 Pisa, PI

**Chief system admin - Allievi Scuola Superiore San'Anna** Students at Sant'Anna School of Advanced Studies host and manage a great series of services spread across multiple servers. All services are designed for the students and teachers of the School only. Some of them include a [Mediawiki](#) instance, an [Owncloud](#) N.A.S.,

a [Forgejo](#) git server and many microservices.

All the services run inside Podman containers and their developement and deployment is handled and automated by ci/cd pipelines.

For a year I have been the chief system admin, supervising all services and every team of students behind each one of them.

1 SEP 2022 - CURRENT Livorno, LI

**System admin and staff - Amichiamoci** [Amichiamoci](#) is a non-profit chuch organization that holds a series of events and sport competitions in the month of september every year.

I personally wrote the management panel, used by the Staff and also the [web app](#) , used by the participants to subscribe (take part) to the event and to receive updates about it. Since 2023, nearly 1000 people have used our systems.

During both 2024 and 2025 editions, the web app has achieved an uptime of 99.9%.
